

Product Name: Human Frataxin ELISA Kit, Fluorescent

Cat. No.: MDFD-2505-CXX-39

Package: 1 x 96 Tests

Description

Human Frataxin ELISA Kit, Fluorescent, is a kit for the quantitative measurement of human frataxin in cell culture extracts and tissue extract samples.

Product Details

Sample Types: Cell culture extracts, Tissue extracts

Reactive Species: Human

Detection Method: Fluorescent

Assay Type: Sandwich (quantitative)

Assay Platform: Pre-coated microplate (12 x 8 well strips)

Assay Time: 1h 30min

Range: 3.91 - 4000 pg/mL

Sensitivity: 1.7 pg/mL

Target: FXN

Alternative Names: FRDA, X25, FXN, Friedreich ataxia protein, Fxn

Shipping Conditions: Blue Ice

Storage Information: 4°C

 For preclinical research and development use only; not intended for therapeutic or other applications.
