

Product Name: Metronidazole

Cat. No.: BIAOS-2505-CXX-31

Package: 5 g

Description

Nitroimidazole with antiparasitic and antibacterial activity.

Product Details

Formal Name: 2-(2-methyl-5-nitroimidazol-1-yl)ethanol

Synonyms: Metronidazole

Purity: >99%

CAS Number: 443-48-1

Formula: C₆H₉N₃O₃

Molecular Weight: 171.15

Appearance: Solid

Stability: Stable for 12 months

Storage Information: 4°C

Application

Antiparasitic and antibacterial compound

 For preclinical research and development use only; not intended for therapeutic or other applications.
