

Product Name: Absolute Mitochondrial DNA Copy Number Quantification qPCR Assay Kit (Human)

Cat. No.: MDGT-2505-CXX-1

Package: 100 Tests/500 Tests

Description

The kit utilizes qPCR assay to measure human mtDNA copy number quantitatively.

Product Details

Sample Types: Cultured cells, Tissue, Saliva, Urine, Spinal fluid, Lavage fluid, Blood

Reactive Species: Human

Detection Method: qPCR

Shipping Conditions: Blue Ice

Storage Information: -20°C

 For preclinical research and development use only; not intended for therapeutic or other applications.
